

All our permissions are managed and granted electronically through Copyright Clearance Center's RightsLink®; please follow the steps below (or advise the Publisher to do so if appropriate):

Authors retain a number of rights which can be reviewed here:

<http://journalauthors.tandf.co.uk/copyright/sharingYourWork.asp> but you may still be required to download a licence.

1. Point your browser to the required article's abstract within the journal:  
[www.tandfonline.com/tcag](http://www.tandfonline.com/tcag)
2. At the bottom of the article's landing page you will see a tab named 'reprints and permissions', please click on this and select 'request permissions'.
3. A new window will open (please ensure pop up blockers are turned off) which takes you to the RightsLink® interface.
4. Follow the steps by selecting from the dropdown menus starting with 'I would like to...'
5. This will generate a quote for the permissions requested.
6. Create an account and pay for the permissions if applicable.
7. You can then download your licence to reuse.

If you are unable to request the type of permissions you require or need further information, please contact the permissions team [permissionrequest@tandf.co.uk](mailto:permissionrequest@tandf.co.uk).
